RESEARCH ARTICLES

The chestnut pathogen <i>Gnomoniopsis smithogilvyi</i> (<i>Gnomoniaceae</i> , <i>Diaporthales</i>) and its synonyms LUCAS A. SHUTTLEWORTH, DONALD M. WALKER & DAVID I. GUEST	929
Distribution of <i>Alternaria</i> species among sections. 2. Section <i>Alternaria</i> PHILIPP B. GANNIBAL	941
The lichen genus <i>Kroswia</i> in China HUA-JIE LIU, JIAN-SEN HU & CHAO LI	951
New reports of macromycetes from Mexico OLIVIA RODRÍGUEZ, MARÍA DE JÉSUS HERRERA FONSECA & ADRIÁN GALVÁN CORONA	961
Two new records of microfungi from the Brazilian Atlantic Forest MARCELA A. BARBOSA, MARINA A.G. ARAÚJO, MAYRA S. OLIVEIRA, PHELIPE M.O. COSTA, ELAINE MALOSSO & RAFAEL F. CASTAÑEDA-RUIZ	967
<i>Pyramidospora quadricellularis</i> sp. nov. on submerged leaves from Brazil MAYRA S. OLIVEIRA, MARINA A.G. ARAÚJO, MARCELA A. BARBOSA, JESSICA C. SILVA, ELAINE MALOSSO & RAFAEL F. CASTAÑEDA-RUIZ	971
<i>Tretolylea</i> , a new genus from the Brazilian semiarid region TAIMY CANTILLO-PÉREZ, LUÍS FERNANDO PASCHOLATI GUSMÃO & RAFAEL F. CASTAÑEDA-RUIZ	977
<i>Acaulospora reducta</i> sp. nov. and <i>A. excavata</i> —two glomeromycotan fungi with pitted spores CAMILLA M.R. PEREIRA, BRUNO TOMIO GOTO, DANIELLE KARLA ALVES DA SILVA, ARAESKA CARENNA DE ALMEIDA FERREIRA, FRANCISCO ADRIANO DE SOUZA, GLADSTONE ALVES DA SILVA, LEONOR C. MAIA & FRITZ OEHL	983
<i>Lecanicillium uredinophilum</i> sp. nov. associated with rust fungi from Korea MI-JEONG PARK, SEUNG-BEOM HONG & HYEON-DONG SHIN	997
DNA barcoding is an effective tool for differentiating <i>Pisolithus</i> species from Macedonia KATERINA RUSEVSKA, MITKO KARADELEV, CHERDCHAI PHOSRI, MARGARITA DUEÑAS, M. TERESA TELLERIA, ROY WATLING & MARÍA P. MARTÍN	1007

- Five new species of *Hymenoscyphus* (*Helotiaceae*, *Ascomycota*)
with notes on the phylogeny of the genus
HUAN-DI ZHENG & WEN-YING ZHUANG 1017
- Phyllachora jianfengensis*, a new species from China
NA LIU & MENGZHEN LI 1039
- A new species and a new combination in *Codinaea* from Brazil
MAYRA S. OLIVEIRA, ELAINE MALOSSO & RAFAEL F. CASTAÑEDA-RUIZ 1045
- Conidial fungi on *Araucaria angustifolia*: *Trichoconis foliicola* sp. nov.
and two new records from Brazil
SILVANA SANTOS DA SILVA,
LUÍS FERNANDO PASCHOLATI GUSMÃO & RAFAEL F. CASTAÑEDA-RUIZ 1059
- Entyloma scandicis*, a new smut fungus on *Scandix verna*
from Mediterranean forests of Israel
KYRYLO G. SAVCHENKO,
LORI M. CARRIS, LISA A. CASTLEBURY, VASYL P. HELUTA,
SOLOMON P. WASSER & EVIATAR NEVO 1061
- Myxomycetes of Chihuahua (México) 4.
Central Plains of the Chihuahuan Desert
MARCOS LIZÁRRAGA,
GABRIEL MORENO, MARTÍN ESQUEDA, CYNTHIA SALAZAR-MÁRQUEZ
& MARTHA L. CORONADO 1073
- Three *Trichoderma* species associated with wood discoloration
in South Korea
SEOKYOON JANG, YEONGSEON JANG, GYU-HYEOK KIM & JAE-JIN KIM 1103
- Terriera fici* sp. nov. on *Ficus vasculosa* from Hainan Province,
China
YUAN WU, SHI-JUAN WANG,
YAN-QIONG MENG, YAN-PING TANG & YING-REN LIN 1111
- Six *Russula* records from Turkey
HASAN HÜSEYİN DOĞAN & ÖYKÜM ÖZTÜRK 1117
- Dictyosporium amoenum* sp. nov. from Chapada Diamantina,
Brazil
CAROLINA RIBEIRO SILVA, LUÍS FERNANDO PASCHOLATI GUSMÃO
& RAFAEL F. CASTAÑEDA-RUIZ 1125
- Synchaetomella aquatica* sp. nov. from submerged leaves
from Brazil
PATRÍCIA OLIVEIRA FIUZA,
LUÍS FERNANDO PASCHOLATI GUSMÃO & RAFAEL F. CASTAÑEDA-RUIZ 1135
- Tuber petrophilum*, a new truffle species from Serbia
MIROLJUB MILENKOVIĆ, TINE GREBENC,
MIROSLAV MARKOVIĆ & BORIS IVANČEVIĆ 1141
- Pouzarella alissae*, a new species from northwestern California,
United States
DAVID L. LARGENT & SARAH E. BERGEMANN 1153
- The discovery of *Syncephalis obliqua* (*Zoopagomycotina*, *Zoopagales*)
in the Neotropics
ROGER FAGNER RIBEIRO MELO,
LEONOR COSTA MAIA & ANDRÉ LUIZ CABRAL MONTEIRO DE AZEVEDO SANTIAGO 1165

Two new records of <i>Agaricus</i> spp. from Ethiopia	
R. SITOTAW, Y. LI, T.-Z. WEI, D. ABATE & Y.-J. YAO	1171
<i>Phoma candelariellae</i> sp. nov., a lichenicolous fungus from Turkey	
ZEKIYE KOCAKAYA, MEHMET GÖKHAN HALICI & MUSTAFA KOCAKAYA	1185
<i>Neoalbatrellus subcaeruleoporus</i> sp. nov. (<i>Scutigeraceae</i>) from	
western North America	SERGE AUDET & BRIAN S. LUTHER 1191
New <i>Acrocordia</i> and <i>Candelariella</i> records for Turkey	
ZEKIYE KOCAKAYA & MEHMET GÖKHAN HALICI	1203
BOOK REVIEWS AND NOTICES	ELSE C. VELLINGA 1209
REGIONAL MYCOBIOTAS NEW TO THE MYCOTAXON WEBSITE	1213
Gasteroid mycobiota (<i>Agaricales</i> , <i>Geastrales</i> and <i>Phallales</i>)	
from Espinal forests in Argentina	
MARÍA L. HERNÁNDEZ CAFFOT, XIMENA A. BROIERO, MARÍA E. FERNÁNDEZ,	
LEDA SILVERA RUIZ, ESTEBAN M. CRESPO & EDUARDO R. NOUHRA	
A checklist of <i>Hymenochaetaceae</i> from Northeast Brazil	
CARLA R. S. DE LIRA, GEORGEA S. NOGUEIRA-MELO,	
LEIF RYVARDEN & TATIANA B. GIBERTONI	
Corticoid fungi of the western Canary Islands. Chorological additions	
ESPERANZA BELTRÁN-TEJERA, J. LAURA RODRÍGUEZ-ARMAS, M. TERESA TELLERÍA,	
MARGARITA DUEÑAS, IRENEIA MELO, ISABEL SALCEDO & J. CARDOSO	
The lichenicolous fungi of Burdur province (Turkey)	
KENAN YAZICI & JAVIER ETAYO	
NOMENCLATURAL NOVELTIES AND TYPIFICATIONS	
PROPOSED IN 130(4)	1215

REVIEWERS — VOLUME ONE HUNDRED THIRTY (4)

The Editors express their appreciation to the following individuals who have, prior to acceptance for publication, reviewed one or more of the papers prepared for this quarter.

Joe Ammirati	Mikael Jeppson	Toru Okuda
André Aptroot	Ze-Feng Jia	Shaun R. Pennycook
Nahara Ayala Sánchez	Mitko Karadelev	V. Ramírez-Cruz
Juliano M. Baltazar	Bryce Kendrick	Jolanda Roux
Timothy J. Baroni	Kerry Knudsen	Amy Y. Rossman
Dominik Begerow	Francisco Kuhar	Leif Ryvarden
Janusz Błaszowski	Ivana Kušan	Roger Graham Shivas

VOLUME 130(2)

Validation of the name *Matsushimiella paraensis*

JOSIANE SANTANA MONTEIRO, LUÍS FERNANDO PASCHOLATI GUSMÃO
& RAFAEL F. CASTAÑEDA-RUIZ

The proposed name “*Matsushimiella paraensis* J.S. Monteiro, Gusmão & R.F. Castañeda, sp. nov.” on page 312 of MYCOTAXON 130(2) was not validly published because the cited registration number, “MB 807635”, was incorrect and is assigned to a separate name. Art. 42.1 of the International Code of Nomenclature (McNeill & al. 2012) requires that after January 1, 2013, ‘the citation in the protologue of the identifier issued by a recognized repository for the name (Art. 42.3) is an additional requirement for valid publication.’ We hereby validate the name *Matsushimiella paraensis* J.S. Monteiro, Gusmão & R.F. Castañeda, sp. nov. with the assigned number MB 810689, with its description published in MYCOTAXON 130: 312. 2015 and its holotype designated as HUEFS 210425. Additional details were published in the original publication.

FROM THE EDITOR-IN-CHIEF

FUNGAL IDENTIFICATION NUMBERS REDUX — The IBC permanent Nomenclature Committee for Fungi is currently engaged in a spirited discussion as to whether citing an incorrect fungal identification number after a newly proposed name SHOULD render that new name invalid. There is no question as to whether the current INTERNATIONAL CODE OF NOMENCLATURE FOR ALGAE, FUNGI, AND PLANTS in fact DOES specify that a name published with the wrong number is an invalidly published name. Article 42.1 requires “the citation in the protologue of the identifier issued,” and leaves no apparent room to correct mistakes. Therefore, until the Melbourne Code is amended to regard a typographical slip of the pen producing an incorrect number as a ‘correctable’ error (as is now permitted for epithets misspelled by authors—most frequently by those ignorant of the grammatical rules of Latin gender agreement), FUNGALNAME, INDEXFUNGORUM, and MYCOBANK identification numbers must be presented with the new names exactly as they have been issued by the repository.

The ‘new’ fungal identification numbers are important enough that we again ask all our authors to make certain that the numbers match the names for which they have been issued. MYCOTAXON also now includes them in the list of nomenclatural novelties and typifications that closes each issue. Correctly, we hope!

MYCOTAXON 130(4) contains 29 papers (+ links to 4 new regional mycobiotas) by 118 authors representing 24 countries and revised by 57 expert reviewers.

Within its pages are one new genus (*Tetrolylea* from Brazil) and 21 species new to science representing *Acaulospora*, *Codinaea*, *Dictyosporium*, *Pyramidospora*, *Synchaetomella*, *Tetrolylea*, and *Trichoconis* from Brazil; *Entyloma* from Israel; *Hymenoscyphus*, *Kroswia*, *Phyllachora*, and *Terriera* from China; *Lecanicillium* from Korea; *Neolbatrellus* from western Canada and the USA; *Phoma* from Turkey; *Pouzarella* from the USA; and *Tuber* from Serbia.

In addition to range extensions and/or new hosts for previously named taxa, we also offer one new combination in *Codinaea*, *Gnomoniopsis smithogilvyi* as the correct name for the chestnut pathogen, a complete list of the species currently accepted in *Alternaria* sect. *Alternaria*, a monographic treatment of *Kroswia* in Korea, a multigene phylogeny of *Hymenoscyphus*, the DNA bar-code assisted identification of three *Pisolithus* species in Macedonia, an overview of myxomycetes in Chihuahua Desert, a pictorial key to *Dictyosporium* conidia, and a revised key to the American and European species of *Scutigera* sensu lato.

With our very best wishes for a joyful and productive 2016,

Lorelei L. Norvell (*Editor-in-Chief*)
29 December 2015

PUBLICATION DATE FOR VOLUME ONE HUNDRED THIRTY (3)
MYCOTAXON *for* JULY-SEPTEMBER, (1-X + 601-928)
was issued on October 9, 2015

FOUR STEPS TO SUCCESSFUL MYCOTAXON PUBLICATION IN 2016

Prospective MYCOTAXON authors should download instructions PDF, review and submission forms, and other helpful templates by clicking the ‘file download page’ link on our INSTRUCTIONS TO AUTHORS page before preparing their manuscript. Below is a summary of our ‘4-step’ publication process.

1—PEER REVIEW: Email formatted text and illustration files with a 2014 MYCOTAXON Reviewer Comments Form to 2–3 experts for peer review. Authors should (i) ask peer reviewers to return revisions and comment forms to BOTH authors and *Editor-in-Chief* <editor@mycotaxon.com> and (ii) follow reviewer suggestions **before** sending revised files to the *Nomenclature Editor* for nomenclatural review.

2—NOMENCLATURAL REVIEW: Email all text-based files (with phylotrees & other text-based art) to the *Nomenclature Editor* <PennycookS@LandcareResearch.co.nz> for accession and pre-submission review. Place ‘MYCOTAXON’ + first author surname on the subject line; list all peer reviewer names+Email addresses in the message. The *Nomenclature Editor* will assign accession numbers and return annotated files with a list of needed corrections to the authors and *Editor-in-Chief*.

3—FINAL SUBMISSION: Consult experts, revise and thoroughly proof manuscripts, and prepare error-free text and image files ready for immediate publication. Label the Email with the accession number before attaching the (i) 2016 MYCOTAXON submission form; (ii) text files for main text, tables, and legends; and (iii) final art files to the *Editor-in-Chief* <editor@mycotaxon.com>. The *Editor-in-Chief* usually Emails all coauthors and expert reviewers within two weeks of final submission, but please wait at least 14 days before sending a follow-up query (without attachments).

4—FINAL EDITORIAL REVIEW & PRESS PREPARATION: Files not ready for publication will be rejected or returned to authors for further revision; the *Editor-in-Chief* gives tentatively approved manuscripts a final grammatical and scientific review before converting all files into publishable format. The PDF proof, bibliographic citation, and nomenclatural entries are sent to all coauthors for final inspection prior to publication. Thereafter, the *Editor-in-Chief* corrects ONLY processing or editorial errors prior to publication but will list corrections of author errors in the ERRATA of a subsequent volume for no charge. Authors are expected to arrange payment of page charges and optional open access fees with the *Business Manager* <subscriptions@mycotaxon.com> at this time.

MYCOTAXON LTD— www.mycotaxon.com

The MYCOTAXON *Webmaster* <mycotaxon@gmail.com> posts general and subscription information, important announcements, and author forms and templates on the official MYCOTAXON site. The server also hosts the regional mycobiota webpage for free download of distributional annotated species lists.

MYCOTAXON ONLINE— www.ingentaconnect.com/content/mtax/mt

MYCOTAXON publishes four quarterly issues per year. Both open access and subscription articles are offered.
